

THE **SANDBOX** BLOG

Sandboxing Orchard Street

Scott Francisco — February 20, 2014

The Pilot Projects team is working with the Lower East Side Business Improvement District on a redesign of the Orchard Street streetscape. Last night, we used our signature Sandbox method to create a fun, interactive planning workshop for the community at the Tenement Museum.

Check out [coverage of the workshop here](#), and our [project page here](#).

We were very pleased to have Manhattan Borough President participate and praise our project. Thanks for joining us, Gale!
